

# NEW LUCE COMMUNITY TRUST CONSULTANCY SERVICES

"LET US HELP YOU MAKE YOUR  
ORGANISATION THRIVE AND GROW"

## WHO WE ARE?

New Luce Community Trust was set up several years ago to administer Community Benefit Funds from local Windfarms. This has involved various project developments over the years.

## WHAT WE DO?

We set up and manage projects based on Community needs and aspirations. This is carried out through a Community Consultation Process.

From this we have built up a wealth of knowledge in various areas and have now set up a consultancy section to be able to help and support other organisations and groups.

## COMMUNITY CONSULTATIONS

To enable a positive outcome from funders it is essential to consult with your stakeholders and community - We can help you do this in an effective and productive manner.

## PROJECT DESIGN & DEVELOPMENT

We can help design your project - from initial consultation, to design and taking forward stage by stage of the process. We have worked on playpark developments, hotel purchase and renovations, transport projects, and much more.

## BUSINESS & FINANCE CONSULTATION

We can support you to create unique business plans, develop robust financial processes, and submit grant funding applications.
