Underused Buildings Community Consultation

A community consultation has taken place over the last few months on the underused buildings in the village, with 2 open meetings to engage with the community, a questionnaire and a stakeholder meeting.

The community had an opportunity to vote on their preferred option, and from this the most favourable option was to look at a potential purchase of the Kenmuir Arms in the village.

The Trust has viewed the property and are in the process of applying for a funding package to secure a purchase. The decision on this will take place in November, and if successful we would hope to pursue a purchase by the end of the year—If the property is still available at this time.

The proprietors have been made aware of all of the above.

If successful in funding the Trust will be looking to make this property into a “Community Hub”, hosting existing services and adding new ones, including a space to get a coffee/snack which was widely suggested at the consultation events.

Please bare with us on this project, as we are confined to timing constraints within the funding application process therefore cannot progress any quicker.

In Memorial Hall @ 7pm

Community Transport Project

Taxi cards have been issued to households who applied for this scheme, with £150 of credit being issued on pre paid cards.

Can we please ask that when booking your taxi that you say you are from New Luce and using a taxi card, as the company have been having issues with receiving a signal in the village for the payment process, however if they are aware of this at the start of the journey they can input the fare information at the start/end of journey .Please also remember that the use of the card has to be either **TO** or **FROM** your home, and cannot be used out with the area. Please advise the Trust if you move out of the area

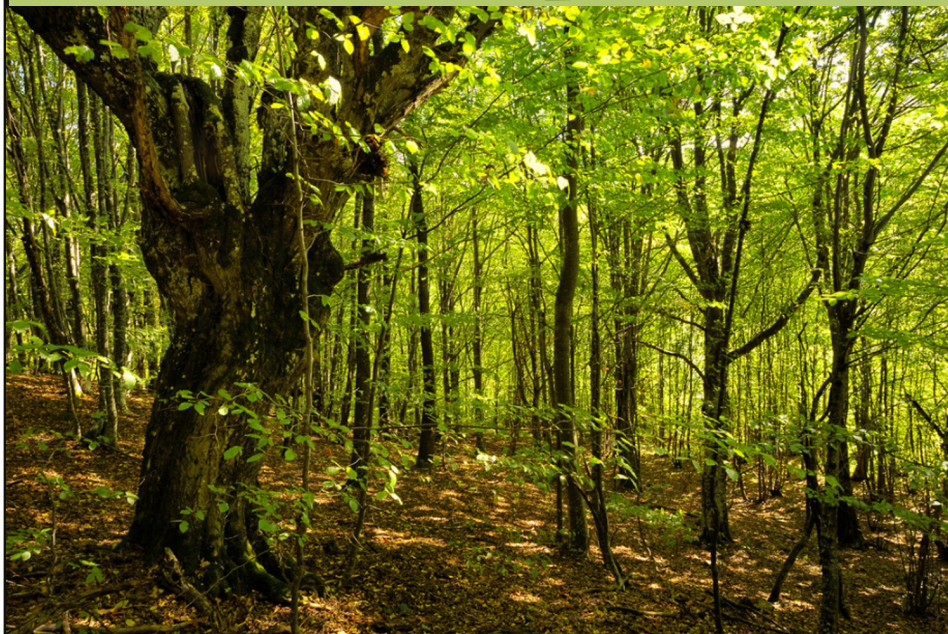

4G Mobile Signal

We are working in conjunction with the Scottish Government's 4G infill programme, who have selected New Luce as one of 16 areas to be upgraded to a 4G mobile signal.

A contractor has been appointed and they are in the process of developing a rollout schedule for works to begin.

As soon as we have any further information on dates etc, we will update the community.

Green Spaces

Progress in ongoing with this project and we hope to see work started at the woodland area as you come into the village from Glenluce, around October time.

This will include thinning and removal of trees and a clean up of the area.

If anyone has ideas for other green spaces around the village please let us know.

New Luce Community Trust Company Membership

New Luce Community Trust needs as many people as possible to have a say in the running of the Company. You can do this by becoming a Member .

It costs nothing to join!
